

Locations

Currently, Trex Bins are located at 6 drop-off spots in town:

- **Town Hall Lobby**
- **Rec Center**
- **Library**
- **Harmon Cove Clubhouse**
- **High School (Denise Edmunds)**
- **DPW Office**

We Need Your Help!

The Environmental Department has to hand-sort materials, because unacceptable items are still being included in bins. So, we ask that you please take the time to review what

CAN & CANNOT be accepted

Thank you for your help to keep our Trex recycling program successful!

If you have questions, please contact:

**Town of Secaucus
Environmental Department**

**Town Hall Annex
Second Floor
20 Centre Ave
Secaucus, NJ 07094**

**201-86-GREEN (47336)
Environmental@Secaucus.net**

Trex Plastic Film Recycling Program

This program enables residents to recycle plastic film, a material that CANNOT be included in regular curbside recycling collection.

**Town of Secaucus
Environmental
Department**

This brochure is printed on 30% post consumer recycled paper.

ACCEPTED BY TREX

The following materials must be **clean, dry**, & free of food residue:

- **PALLET WRAP & STRETCH FILM**
- **PLASTIC FILM BAGS**
(grocery bags, bread bags, dry cleaning bags, produce bags, ice bags, newspaper sleeves)
- **PLASTIC SHIPPING ENVELOPES**
(do not include paper envelopes)
- **ZIPLOCK BAGS & OTHER RESEALABLE BAGS**
- **CEREAL BOX LINERS**
- **CASE OVERWRAP** (such as plastic product wrap that water bottles & toilet paper come in)
- **BUBBLE WRAP**

NOT ACCEPTED BY TREX

Trex only uses plastic film (*think stretchy & thin*) for their products, so any other types of materials **cannot** be accepted such as:

- **NO FOIL WRAPPERS**
(*such as things that make a hard crinkle sound, like candy wrappers & chip bags*)
- **NO FRUIT NETTING**
- **NO STYROFOAM**
- **NO NAPKINS**
- **NO RECEIPTS**
- **NO LATEX GLOVES**
- **NO STRAWS**
- **NO PLASTIC BOXES OR HARD PLASTIC PACKAGING**
- **NO PET FOOD BAGS**
- **NO WET OR FOOD CONTAMINATED BAGS**
(*these produce odor in the bins & is unsanitary for us to handle*)

Please **DISCARD** these items in your garbage bin, and **consider reusable options to reduce waste!**

HOW IT WORKS

WHERE: The Environmental Department brings the plastic film deposited in Trex bins to local retailers who are officially partnered with Trex. These retailers bale the plastics and ship them to Trex's facility in Virginia.

HOW: Trex uses the plastic film to create their high-composite porch and decking materials.

WHY: To divert thousands of pounds of plastic waste from landfills, and to offer environmentally responsible outdoor products.*

***Note:** although Secaucus has a plastic bag ban in effect, plastic film still exists in our society & this program offers a way to recycle it. To learn more about the new statewide plastic bag ban, visit [ChooseToReuseNJ.com](https://www.ChooseToReuseNJ.com)
